

25X1A

**Photographs of Soviet Space
Exhibits**

25X1A

1. [REDACTED] has asked for the photo of Lubianka Prison referred to in the attached.

2. The Employee Activity Branch claims that the photographs were given to the DD/S&T Security Staff.

3. Although you originally had the action on these photographs, I attempted to save you the trouble and took care of the request myself. I went to FMSAC and OSI, who were the logical recipients. However, I have gone as far as I can on this matter. FMSAC, after many queries, has not uncovered them; OSI provided six photos, but all were of Soviet space equipment and exhibits. The Lubianka photo was not located.

4. Since you distributed these photos and know their whereabouts, would you kindly arrange to handle the EO's request and obtain the photo in question.
